

SUSTAINABLE SOLUTIONS

We've got you covered.

Our packaging solutions to-go will ensure you're compliant today, tomorrow and into the future.

Detpak

WHY CHOOSE DETPAK?

Detpak is part of the Detmold Group, a family-owned Australian business with a worldwide network of manufacturing and sales locations.

Our approach to the environment is circular – from our product design, to the materials we use, to how we manufacture. With world leading innovation toward global sustainability principles, we offer solutions that are readily recyclable and commercially compostable. Our strategic industry connections enable real end of life recovery solutions.

We make responsible choices, to make your choice easy.

WE'VE GOT YOU COVERED

Bans against identified Single-Use Problematic Plastics are coming into force.

In Australia, localised state and territory legislation continues to roll out. These sit alongside federal legislation, which is due to come into force from July 2022.

New Zealand have also made commitments to phasing out single-use plastic products between 2022 and 2025.

Businesses will need to consider if their packaging complies with legislation relevant to their location, in order to avoid penalties for non-compliance.

Rest assured, we've got you covered. Our commitment to innovation and sustainability means that our packaging solutions are not only suitable for today, but also for tomorrow.

We make responsible choices, to make your choice easy.

To find out what is happening in your location visit:

* Remove window before recycling or composting ~ Only when collected for Commercial Composting

♻️ Recyclable
This product can be recycled via curbside recycling or placed into a dedicated collection system.

♻️ Compostable
This product is suitable for treatment in a commercial facility, where it will break down within 90 days as defined by the European Packaging Compostability Standard EN 13432 or the American Society for Testing and Materials (ASTM) Standards ASTM D6400 or ASTM D6868.

♻️ Sustainable
The paper or board material used in this product is sourced from responsible forestry, and the supplier has been audited for evidence of sustainable and ethical practices.

OUR COMMITMENT TO INNOVATION

Detpak has long been an innovator in the food packaging space. At our core is an entrepreneurial spirit and passion, which shines through in superior quality, service, value and commitment to the customer.

Our team of graphic and industrial designers, and technical paper and board product experts design and create innovative packaging solutions that work. Our LaunchPad team can also create customised packaging prototypes to provide a competitive advantage to our customers in a fast-moving market.

All of our customers benefit from our innovation, with Detpak's standard product offering updated with new products, improvements, and range expansions based on the work of our expert innovation team.

DID YOU KNOW?

Our LaunchPad team produce hundreds of unique packaging designs every year for some of the world's largest brands, right through to home grown locals.

YOUR FOOD ON THE MOVE

Our comprehensive range of packaging solutions considers key functionality requirements to get your food on the move.

Promoting food integrity, presentation and freshness, our extensive range covers a variety of cuisines and needs - from food delivery, to takeaway food designed for on-the-go consumption.

From home delivery, event and food trucks, our packaging solutions can help get your food on the move.

-  Ready-to-go range
-  Innovative packaging
-  Made from food safe materials
-  Superior strength

Takeaway Food Bags

Takeaway Food Bags are constructed from quality materials for holding multiple items, like orders of takeaway food. They are free-standing and easy to load.

DID YOU KNOW?

Carnauba Wax, used to coat the cutlery in our wooden cutlery pack, is derived from the leaves of the 'Copernicia prunifera', a tree native to the Brazilian regions of Piauí, Ceará, Maranhão, Bahia, and Rio Grande do Norte. The use of this wax creates a smooth, premium surface and means the cutlery can be commercially composted.

Deli-Wraps™

Deli-Wraps™ have a light wax coverage on both sides, creating a food wrap with a good moisture barrier, whilst also allowing breathability. They're perfect for wrapping sandwiches, bakery items, and seafood.

Burger Wraps

Burger Wraps are tissue paper with a generous wax layer on one side, providing excellent grease resistance. Ideal for wrapping juicy burgers, kebabs and hot rolls.

Medium Waxed | 380 x 330
F120S0001
White | 3000 Ctn | 1000 Slv

DID YOU KNOW?

Deli-Wrap™ pick-up sheets make the perfect base when placing slightly fried foods into unlined cartons like the Go or Endura Range. Burger Wraps can also be used to provide a higher level of grease protection. Just place the wrap in the bottom of the tray or carton before loading with food.

ECO-PRODUCTS® BY DETPAK

Eco or Ecology is about relationships: how we relate to our environment and each other.

Our new Eco-Products® range has been designed with the environment in mind - from the raw material selection to end-of-life disposal.

The Australian and New Zealand launch of the category leading Eco-Products® portfolio demonstrates a commitment to deliver a healthy, balanced relationship with our environment and with our customers.

The Eco-Products® range is made from sustainable, renewable raw materials and is compostable and/or recyclable - without compromising on function or quality.

Every action we take has an impact on our environment, but you can relax and be confident that the Eco-Products® range takes the guess work out of environmental responsibility.

**Eco-Products®
Sugarcane bowls**

Eco-Products® Sugarcane Bowls & Cups are alternatives to plastic or polystyrene and are compostable, and made from a reclaimed and rapidly renewable material.

DID YOU KNOW?

Poly(lactic acid) (PLA) is a natural starch derived from plants like corn and sugarcane that is processed to create a clear plastic-like film or bioplastic. These innovative films and bioplastics are made from annually renewable resources, and are naturally compostable.
